

Myat Min Khant

(COMPUTER SCIENCE STUDENT)

Kuala Lumpur, Malaysia | 01164597291 | mmk111203@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Summary

A detail-oriented Computer Science student specializing in Data Science with a proven track record in both technical development and small business operations. Experienced in managing end-to-end customer workflows, tracking inventory, and building software solutions. Possesses strong problem-solving and communication skills gained from mentoring and organizing large-scale community events. Seeking versatile part-time opportunities (on-site around KL or Selangor area or remote).

Skills

- **Operations & Administration:** Business operations, inventory tracking, event coordination, logistics, Microsoft Excel/Office, data entry.
- **Technical & Web Development:** Python, JavaScript, PHP, React.js, Node.js, HTML/CSS, Git/GitHub, Linux fundamentals.
- **Data & Analytics:** Data analysis, report generation, supervised machine learning, SQL, spreadsheet modeling.
- **Soft Skills:** Mentoring/teaching, customer service, fluent English, team leadership, cross-functional collaboration.

Projects

AIU Postgraduate Monitoring System | *Final Year Project*

Aug 2025 – Present

- Documented workflows and validated role-based user journeys for a multi-user platform supporting 500+ users.
- Supported testing by checking key flows and permissions (RBAC) and recording issues for improvements.

Smart Greenhouse Monitoring System (IoT) | *IoT*

Jan 2026 – Feb 2026

- Developed an end-to-end IoT monitoring system for temperature, humidity, soil moisture, and gas levels using ESP32 and sensor integrations.
- Implemented edge decision logic for real-time alerts (irrigation LED and gas buzzer) based on threshold conditions.
- Published JSON telemetry to ThingsBoard via MQTT for live dashboard monitoring and status visualization.

ChatGPT App Review Analyzer | *NLP*

Nov 2025 – Jan 2026

- Developed a Python pipeline to analyze 2,000+ reviews and built a simple web interface for predictions.
- Validated outputs, improved consistency, and kept documentation clear for future changes.

Work and Extracurricular Experience

AIA Digital + | *Cloud Operations intern*

Apr 2026 – Present

- Assisted in IT operations activities involving Incident Management, Change Management, cloud operations, and ticket management using ServiceNow and Microsoft Azure.
- Gained practical exposure to IT governance, compliance procedures, system monitoring, and cross-functional collaboration within a professional enterprise environment.

Print With Sahel | *Founder & Owner*

Apr 2024 - Feb 2026

- Managed operational systems, inventory tracking, and issue resolution.
- Analysed operational data to improve efficiency and service reliability.

Kedah Maker Fair 2025 | *Committee Member & Event Organizer*

- Coordinated logistics and technical arrangements for a state-level event involving 66 school teams.

Young Innovators Challenge 2025 (Chumbaka) | *Mentor & Trainer*

- Guided teachers and students through problem identification, ideation, and prototyping activities.

Education

- **Certified Data Analyst Professional Certificate (IBM)**
- **Generative AI for Software Development Professional Certificate (Deep Learning.AI)**
- **Bachelor of Computer Science (Honours) | CGPA -3.53** **Oct 2023 – Present**
Albukhary International University (AIU) | Alor Setar, Kedah, Malaysia
- **Foundation in Computing | CGPA - 3.27** **Oct 2022 – Sep 2023**
Albukhary International University (AIU) | Alor Setar, Kedah, Malaysia
